

What can you do to help stop the criminals behind it?

In an emergency, or if a crime is happening now, always call 999.

If you've spotted any of the warning signs that you may have witnessed a crime, or know details about the criminals behind one, you can speak up with information 100% anonymously to the **Coastal Crime Line** www.forms.theiline.co.uk/coastal-crime-line or call **0800 011 3304** powered by our charity.

The kind of details that could help:

- **Who is committing the crime?** Even if you don't have a name, any details about the person/people, such as what they look/sound like, or the make, model or reg number of any vehicles they use is really helpful.
-
- **When and where did you see something criminal or suspicious?** Again, it's OK if you don't have all the precise details, but anything about the location or time could be useful.
-
- **What did you see/what do you know?** The more descriptive you can get about what you've seen, know, or suspect the better, as the clearer the info is, the more helpful it will be to help authorities build the bigger picture.

We know how scary speaking up can be – you don't want anyone to find out you said anything. That's why we're powering the Coastal Crime Line. Call free, 24/7, on 0800 011 3304 or to head to the simple online form www.forms.theiline.co.uk/coastal-crime-line and help make a difference in keeping our coastline crime-free.

Please support our charity help communities speak up, stop crime and stay safe whilst remaining 100% anonymous by **displaying the contents of this pack to local and visiting members of your community.**
