

South Devon Catchment Partnership Autumn Meeting

6th September 2023

14:00 – 16:00

We look forward to welcoming you at the next South Devon Catchment Partnership meeting, which is being held online via Zoom and in person at Follaton House, Totnes. At this meeting, we will take the opportunity to give an overview of the Catchment Based Approach (CaBA) and the SDCP for our many new partners. This will be followed by the South Devon highlights from the recent CaBA Benefits reporting process and signposting any new projects that align with our catchment priorities. Finally, there will be an opportunity to discuss the structure of the Partnership, our vision, and how we might organise ourselves to best deliver a future Integrated Catchment Partnership Plan.

As always, there will also be the opportunity for partners to share project updates and outcomes with each other.

Agenda
